

Relatório *Best Execution* 2017

No sentido de atingir os melhores resultados possíveis de forma consistente aquando da execução de ordens por conta de Clientes, o Banco Carregosa considera na sua análise os seguintes fatores de execução:

- O preço de execução do contrato, antes da imputação de comissões;
- A rapidez e probabilidade de execução e liquidação;
- O volume da ordem e o seu eventual impacto nos preços praticados em mercado;
- A possibilidade de execução da ordem a um preço mais vantajoso; e ainda
- Qualquer outra consideração relevante para a execução da ordem.

Os fatores referidos são alvo de uma ponderação relativa adequada às circunstâncias e especificidades de cada ordem. Nesse exercício, serão consideradas as seguintes dimensões:

- O Cliente e a sua classificação como investidor;
- As características da ordem;
- Os instrumentos financeiros que são objeto da ordem; e
- As características das plataformas de negociação para as quais a ordem pode ser dirigida.

Na concretização da política de execução nas melhores condições, o preço merecerá prioridade relativamente aos restantes fatores. Todavia, sempre se verifique liquidez reduzida nas plataformas de negociação relevantes para a execução integral da ordem, quando a ordem deva ser executada numa janela temporal específica ou sempre que Banco Carregosa disponha de dados que lhe permitam determinar a existência de condicionantes que tornem desvantajosa a priorização do fator preço, é atribuída maior importância a outros fatores de execução.

Dado que não foram ainda publicados dados nos termos do Regulamento Delegado 2017/575 da Comissão Europeia, o Banco Carregosa considera que as plataformas de negociação da Euronext são as que apresentam os níveis mais adequados de liquidez e rapidez na execução de ordens sobre ações.

Todas as ordens sobre instrumentos financeiros derivados não cotados introduzidas através dos meios de negociação eletrónica disponibilizados, são transmitidas ao Saxo Bank, parceiro do Banco.

Dados de Execução de Ordens

Class of Instrument	Currency derivatives - Swaps, forwards, and other currency derivatives				
Notification if <1 average trade per business day in the previous year	N				
Top five execution venues ranked in terms of trading volumes (descending order)	Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class	Percentage of passive orders	Percentage of aggressive orders	Percentage of directed orders
Saxo Bank A/S - 549300TL5406IC1XKD09	100.0%	100.0%			

Class of Instrument	ETF				
Notification if <1 average trade per business day in the previous year					
Top five execution venues ranked in terms of trading volumes (descending order)	Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class	Percentage of passive orders	Percentage of aggressive orders	Percentage of directed orders
